DETAILED ACTION

Status of Claims

Claims 1, 3, 5-7 and 11-21 are pending in the application. Receipt is acknowledged of amendment / response filed on August 25, 2003 and that has been entered. Claims 2, 4, and 8-10 have been canceled.

Examiner's amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Harry Shubin on October 6, 2003.

The application has been amended as follows:

- a. Claims 11-12 and 16-21 have been canceled.

Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Cai et al (US Pat No. 5,399,771) teach a process of synthesizing binaphthyl derivatives, which comprises reacting a compound of the formula 2 with diphenylphosphine in the presence of an amine base and a nickel catalyst. The instant process differs from the prior art by having a direct reaction between a compound of the formula II with a perfluoro-n-alkanesulfonyl fluoride, chloride or anhydride in the presence of a base. The prior art process neither teaches nor renders obvious the instant claimed invention and there is no suggestion or motivation to modify the

process of other prior art to obtain the instant process. Therefore the instant claims are allowable over the prior art of record.
